LED Fixture

The Chroma-Q ${ }^{\text {TM }}$ Color Span $2^{\text {TM }}$ is a configurable low profile, ultra bright LED cove lighting and wall wash system for wide ranging applications featuring an improved second generation design. The fixture gives lighting designers, specifiers and end users the flexibility to specify many aspects of its design to meet their particular application needs, including:

IP ratingt: indoor (IP20) or outdoor (IP67) rated use
Body length: $400 \mathrm{~mm} / 16$ ", $800 \mathrm{~mm} / 32^{\prime \prime}$ or $1,200 \mathrm{~mm} / 48^{\prime \prime}$
Body colour: 10 different colour options available
LED colours: RGBA, single colour Red, Green, Blue, Amber, Cool White, Warm White, or any colour combination

Optics: narrow, medium or wide beam angles
This vast range of configurations, combined with a very powerful 2,000 lumens output per $1.2 \mathrm{~m} / 4$ foot and ultra slim design, makes the Color Span 2 suitable for a wide range of wall wash, cove, effects and feature lighting applications in the architectural and entertainment sectors.

As well as benefitting from the same high quality components and innovative LED technologies found in other leading Chroma-Q LED products, the fixture's highly efficient solid-state technology requires less power and maintenance compared to conventional luminaires, enabling it to wash a $21.6 \mathrm{~m} / 72$ foot long wall from just a single wall outlet.

A choice of three lengths available in both IP20 (above) and IP67 (below) versions.

Choose from 10 body colour options available:

Key Features

- Configure the IP rating, body length, body colour, LED colours (4 circuits) and optics
- Low profile LED cove lighting and wall wash system
- Ultra bright - 2,000 lumens per $1.2 \mathrm{~m} / 4 \mathrm{ft}$
- Compatible with Color Span 2, 6 \& 18 way power supplies
- Smooth, linear dimming curve
- Optional RGBA *Magic Amber configuration
*Magic Amber is the term used for the unit's ability to bring in amber when mixing colours that require it
